Allowable – Costs allowable under the terms and conditions of the award, including the authorized budget and applicable regulations.

Consistent – Application of the cost is given consistent treatment within established University policies and procedures; costs for the same purpose are treated and classified the same way under like circumstances.

Cost Transfer – An after-the-fact reallocation of costs, either salary or non-salary, to a sponsored project within 90 calendar days from the original accounting date.

Late cost transfer – An after-the-fact reallocation of costs, either salary or non-salary, to a sponsored project greater than 90 calendar days from the original accounting date.

Original Charge – The first posting of a cost to the general ledger.

Reasonable – The nature of the goods or services acquired, and the amount paid to reflect the action that a prudent person would have taken at the time the decision to incur the cost was made.
